

LETTER: Castro should step in

I am incensed that the Associated Students Inc. of Fresno State would stoop so low as to utilize the old racist term that the language was "confusing" in rejecting the Chicano Youth Conference request for funding. I take that to read that for the last 40 years they have been "confused" but continued to fund the event.

I respectfully request that Fresno State President Joseph Castro review this matter immediately and correct (read "fire") those who are still trying to treat we Chicanos as irrelevant. I support the position of Mecha y los Senores Benavidez, Lopez and Gutierrez.
