

LETTER: Save water so I can get more

<http://www.fresnobee.com/2014/03/11/3816162/save-water-so-i-can-get-more.html>

March 11, 2014

Much has been discussed concerning the California water drought. The March 5 letter by Maguerite McMenamin, however, says it all. Don't most of us realize as long as big business and government are in control, the little people are always the first to conserve and be made to feel guilty for not doing our share? Brings to mind the proverbial "keep your hands out of my cookie jar" (so there'll be more cookies for me!).
