

# Letter: Dams would provide jobs

<http://www.fresnobee.com/2014/03/12/3818073/dams-would-provide-jobs.html>

Fresno

March 12, 2014

I have yet to hear about the jobs that building the reservoirs would create. It would put the iron workers, truck drivers, electricians, crane operators and laborers, along with contractors of all these trades, to work in this area. This is a 10-year job. It puts money in this economy. Do you think along with giving us water, work would be a priority? Just food for thought for Gov. Jerry Brown and President Obama.
