Out-of-control spending and financial mismanagement continue to plague Fresno's budget. Money changers have downgraded our bond rating to junk status. Now more than ever, we need experienced business people to make financial decisions, not out of touch bureaucrats.

Businessman Cary Catalano comes with decades of hard work and sound business practices. The Catalano family has a proven track record of providing the people of Fresno with quality food products, and Cary has had the good fortune of being a major part of their success. We need Cary's leadership during these turbulent times.

I strongly support Mr. Catalano as the next council member in District 1.

Chris Mathys
