Public safety is very important to me. I like knowing that my neighborhood is safe, the streets are protected and that children can play freely outside of their homes. But crime and vagrancy are issues that impact communities, even ours, to their very core.

I was initially undecided on whom to support for Fresno City Council because I do not take the safety of my neighborhood lightly.

However, after talking with Esmeralda Soria and hearing that she received the support of the Fresno Police Officers Association, I know she is the candidate who will best represent the interests of our community.

Esmeralda will do what she can to ensure peace officers are provided the necessary tools and resources to effectively patrol our neighborhoods, including the Tower District. Her commitment to ensuring everyone in Fresno lives a positive quality of life and her understanding of the needs of our community assures me that she is the right candidate in District 1.
