

Provide more officers instead

So Fresno's mayor not only will run for state controller during her remaining stint in office but now she has hired a media spokesman for \$125,000 a year. Really? Fresno cannot have more police officers to improve response times but needs a spokesman?

She will not be paying attention to Fresno during her run for higher office, so what will the spokesman be reporting on? Maybe he will be reminding Fresno that the city is drowning in issues that won't be resolved anytime soon.
