

A waste of \$125,000

The mayor of Fresno has taken waste to another level with the hiring of a \$125,000 PR man for the city. What a joke! Cities, counties and states throughout this country are struggling financially because of budget constraints and reductions, and the mayor of Fresno can justify this kind of financial drain? Give me a break!

Looks like it is just another ploy for a greedy, self-centered politician to make it easier for her to slide out the door and shelter herself from criticism. Please tell me where the \$125,000 is going to come from to pay this political pawn. Maybe this is part of her plan for greater political power and higher office in this state. Jump ship and put another \$125,000 the city doesn't have into a job not needed. It gives Mayor Swearingin more time to pursue her political aspirations.
