I have been a resident of District 1 for 12 years. I am studying and learning all the information about the candidates for City Council for our district. The candidate must have lived here in District 1 and not just rented a place eight months ago. They must know about our history and special concerns. You must get out there and meet us! We need you to be loud, smart and work well with others. We need a voice that intends to focus on our needs.

I found only one candidate that deserves to be my voice and the voice of District 1 and Fresno -- Cary Catalano! His energy and passion is contagious to all. I hope all my fellow District 1 residents will have the time to chat with him about your concerns and the vision you hope to see happen here in Fresno.
