I support Elizabeth Egan for district attorney. There are two professionals running for this position, but only one is the most qualified to lead the county DA's office for the next four years.

DA Egan has experienced the challenges of leading an organization at times of the greatest challenge our county has experienced in many years. Leadership is never easy and rarely appreciated. Egan has weathered significant economic realities of budget constraints, reduced work force and an ever demanding criminal element. The demands of running the DA's office and reporting to the Board of Supervisors is daunting.

Also, her service to Fresno County goes beyond the office. One example is her support and volunteer time to support Children's Hospital and as a parent that is so appreciated. Sheriff Margaret Mims is the closest to the realities of the demands of the entire county and has made her choice in Egan. I value Mims' leadership and support her in this action and her commitment to her department's best interest.

Make your vote count now and select DA Egan to continue her sacrifice to demonstrate her tough-on-crime actions and pledge to protect victim rights.
