Crichton Place Granville Homes will hold a ribbon cutting ceremony tomorrow for its newest downtown Fresno housing development, Crichton Place.

Located at the corner of L and San Joaquin streets, Crichton Place features 28 two-story town homes with three bedrooms, two-and-a-half bathrooms and two-car garages.

Each 1,423 square-foot home comes with fully equipped kitchens with granite countertops, energy efficient appliances, ceiling fans and Granville's Eco-Smart features like tankless water heaters, metal cool roofs, low-E vinyl windows and blown-on fiberglass insulation.

Also included in the gated community are private covered patios, garden boxes, barbecues and a courtyard with shade structures. Monthly rents range from \$1,400 to \$1,500.

Granville Homes will officially welcome Crichton Place to the community with a ribbon cutting ceremony beginning at 9:30 a.m. tomorrow followed by a tour of the homes.

Crichton Place is the seventh downtown revitalization project of Granville's [GV Urban](#) division. The company is also responsible for Fulton Village, the 330 N. Van Ness Cottages, Bungalow Court, 1612 Fulton, the M Street Arts Complex and the Biz-Werx business offices.

GV Urban also broke ground recently on Brio on Broadway, its newest residential project in the downtown's Mural District located at Broadway and San Joaquin streets.
