Officials from the city of Fresno's Department of Public Utilities have released a comprehensive response to an opinion piece written by Measure W proponent and local politician Doug Vagim that was published in Wednesday's Fresno Bee.

The city maintains that his article is filled with inaccuracies, falsehoods, ill-informed theories and unfounded accusations and has provided evidence to refute his claims.

The Administration's detailed response can be found on the City of Fresno website at <http://www.fresno.gov/pdf/pio/Op-EdFactCheck.pdf>.
