

Fresno silence | Fresno Bee Fresno Bee

I'm dismayed at the response, or should I say lack of response by our community to the South Carolina murders of nine individuals. We were inundated with images from Ferguson and Baltimore with demonstrations that represented violence. Leaders in our community spoke to how such things would not happen here in Fresno.

We have been quiet about South Carolina and the terrorist actions taken by an individual who clearly represents a racist perspective. Race is a major concern in the United States, and Fresno is no different. We must begin a dialogue, without fear of intimidation. The issue won't go away. Let's begin a dialogue.

E. Jane Middleton, Fresno
