

Water wasters | Fresno Bee Fresno Bee

I am fully aware of our need to conserve water. However, I have reported to our city water department two times now without any response.

The problem is simply that in our gated community, I see considerable water waste.

I am asking all concerned readers to call the Fresno Water Division and complain about this. Just because this is a gated community and just because it's on a Saturday night doesn't give the department any excuses for not doing its job!

David L. Mayes, Fresno
